For those who wish credit please send three trade references with order and allow me three weeks to communicate with references.

CLAIMS: Every precaution is taken with regard to transit regulations to prevent losses, therefore, in the event of losses due to transit conditions, it is imperative that the consignee file a claim immediately with the carrier.

10% DISCOUNT: I can offer you bigger plants, grown especially for you, at a 10% discount if you order 5,000 or more and if you let me know 60 days in advance of shipping date. Frankly, I add the 5,000 extra cuttings to my regular production quota and set them aside for you. This eliminates risk and is worth the 10% discount. Production planning is a job and a 5,000 order without advance notice is no saving on my part over an order of 100 or 500. Let me hear from you as to how I can work with you on this.

Some customers like This!

We have customers who have found it convenient to give us a **standing order**.

Some tell us to ship each week, some every two weeks, and some once a month.

In this way, they have fresh plants come regularly, and then they supplement their order at various times of the year when more are needed.

We can give these customers extra value in that we know ahead of time what they want, when they want it, and **we reserve plants and keep them in mind all the time.**

Perhaps you would like to do the same. Start now on the order form below.

Remember—you can always cancel or increase the order when you want to.
